Introduction to ChatGPT

Unlock the power of Artificial Intelligence (AI) with ChatGPT, the fastest-growing app in the world. With over 100 million users within the first two months of launch, discover why everyone is talking about this revolutionary platform. In this course, you'll learn how AI tools can dramatically increase your productivity and provide you with a competitive advantage in the workplace. Designed for anyone seeking to acquire new skills, you'll gain an understanding of the capabilities of AI tools and how to leverage them to achieve your goals faster and easier than ever before. Don't get left behind in the AI revolution - join this course and learn how to capitalize on the opportunities it presents. Whether you're a seasoned professional or just starting out, this course is for you. Take the first step towards unlocking your full potential with ChatGPT.

LRN0219-001 ONLINE-Self Paced
 09/03/24-09/28/24
 TUITION & FEE: \$195.00

Cybersecurity

Cybersecurity: Ethical Hacking

Explore the world of cyber attackers, including cybersecurity threats, data breaches and data exfiltration. This course offers a non-technical exploration of common exploit methods and security vulnerabilities in IT and network infrastructures. You will learn how penetration testing can identify and mitigate vulnerabilities, reducing the risk of cyber threats and safeguarding confidential information.

 10/08/24 TU 6:00 pm-8:15 pm
 Instructor: Ravi Das
 TUITION & FEE: \$99.00

Cybersecurity: Phishing and Generative AI

NEW

LIVE

Explore the enduring threat of phishing, which has evolved into a covert and devastating tactic often used for ransomware and extortion. With the rise of generative AI like ChatGPT, distinguishing between legitimate emails and phishing attempts has become nearly impossible. You will learn about phishing's impact and how to protect yourself, delving into non-technical strategies for mitigating phishing risks.

Data Science

Data Analysis

Statistics for Decision Making Digital Badge

SELF-PACED

Improve your decision making success with an advanced practical how-to process for gathering statistics. Help your organization design effective surveys to improve business and workplace effectiveness.

Then road test evaluation research for your organization. You won't be disappointed. Finally, discover the features of action research and how it can be directly applied to answer questions and solve problems in collaboration with others in your specific professional context.

Come away with the ability to develop an action research plan to partner with your key stakeholders to collect data, analyze data, and make better decisions.

LRN0207-004 ONLINE-Self Paced
09/03/24-11/29/24
TUITION & FEE: \$495.00

Statistics for Decisions Using Surveys

SELF-PACED

Improve your ability to develop and deliver statistics for decision making by improving your skills in conducting reliable surveys. Help your organization design effective surveys to improve business and workplace effectiveness. You will also learn how to enter your results into Excel and how to present and explain those results.

LRN0208-004 ONLINE-Self Paced
09/03/24-09/28/24
TUITION & FEE: \$195.00

Online Self-Paced Data Analysis Digital Badge

SELF-PACED

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the vision and ability to analyze data for trends and make valid predictions.

This Digital Badge (LRN0059) requires completion of three courses:

- Introduction to Data Analysis (LRN0060)
- Intermediate Data Analysis (LRN0061)
- Advanced Data Analysis (LRN0062)

Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills.

Evaluation Research

SELF-PACED

Road test evaluation research for your organization. You won't be disappointed. Evaluation research can give you and your organization a systematic assessment of the value of resources and time you commit to a project, product, or specific goal. Evaluation research can determine whether or not a process has achieved a goal or yielded the desired results.

Get introduced to the characteristics of evaluation research and how it can be directly applied to assess the impact or effectiveness of a program, policy, or procedure you want to road test in a professional setting.

LRN0209-004 ONLINE-Self Paced
10/07/24-11/01/24
TUITION & FEE: \$195.00

Action Research

SELF-PACED

Action research is a form of investigation designed to attempt to solve problems and improve professional practices. It involves systematic observations and data collection which can be then used by the practitioner-researcher in reflection and decision-making.

Discover the features of action research and how it can be directly applied to answer questions and solve problems in collaboration with others in your specific professional context.

Come away with the ability to develop an action research plan to partner with your key stakeholders to collect data, analyze data, and determine findings to address this curiosity or solve the problem.

LRN0210-004 ONLINE-Self Paced
11/04/24-11/29/24
TUITION & FEE: \$195.00

Online Self-Paced Data Analysis Digital Badge

SELF-PACED

Make a big difference in the success of your organization by acquiring data analysis skills. Begin by getting a basic understanding of how to analyze data in a business setting. Learn how your business decisions involve comparing groups for differences. Finally, learn how to perform inquiries to your business or organization and communicate the results through graphs and text to your fellow employees and leaders.

LRN0059-022 ONLINE-Self Paced
09/03/24-11/29/24
TUITION & FEE: \$495.00

Introduction to Data Analysis

SELF-PACED

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the ability to analyze that data, see trends, and make predictions. This course will give you a basic understanding of how to analyze data in a business setting. Businesses look for candidates with an understanding of how to analyze the data they have been collecting; this course will help you start on that journey.
