

KAMIND IT security plans are designed to mitigate and reduce the risk of breach

KAMIND IT is a provider of cloud services in four different sectors, which includes Corporate, not-for-profit, Government Community Cloud and Academic environments. Our deployment is designed around CMMC, NIST 800-171 and compliance standards - allowing KAMIND IT to build a baseline infrastructure for our clients. KAMIND IT has published three books on Office 365 and has migrated over 100,000 users to the Microsoft Cloud.

KAMIND IT offers three security options which allow organizations to grow – based on the security needs that fit our clients' risk profiles. With an entry level plan all the way up to our KAM-Fort/compliance plan, we provide an optional 24 x 7 US based support desk. KAMIND leads with our security product suites built around Microsoft 365 Business Premium with Microsoft Defender Advanced Threat Protection, Microsoft 365 E3 with E5 security, and Microsoft 365 E5 subscriptions.

Shield™

- **You manage your own security**

Gold Enterprise Mobility Management

KAMIND builds security and support solutions on Microsoft Azure and integrates all the solutions through Azure Sentinel SIEM. KAMIND's US based 24 x 7 help desk and US based SOC allows KAMIND to fully Manage, Detect and Respond as needed. This is backed up with our knowledge and expertise of the Microsoft Cloud.

Events and alerts over time

SUPPORT AND SECURITY

Support and security are managed differently. Support teams are designed to supply tactical solutions to problems along with proactive systems maintenance. In contrast, Security solutions are very proactive and require a Managed Detection and Response – all built around Azure Sentinel SIEM.

CMMC IMPLEMENTOR

KAMIND has a number of Clients in the government space and is an active participant with the Cybersecurity Maturity Model Certification (CMMC) process and is committed to providing the necessary US based support services and security services that meet the new federal contract requirements for CMMC levels 1, 2 and 3.

24 X 7 US BASED HELP DESK

KAMIND Support services provide a mix of cyber security professionals and a large US based support desk based in Texas that is trained to meet the needs of our Office 365 and Azure clients. KAMIND support and security services are designed to either completely support the necessary services, or partner in a co-managed arrangement with our clients.

GLOBAL REACH

KAMIND's Apress-published books have been distributed worldwide and have over 290,000 copies of Office 365 support and design manuals. These manuals are used by professionals worldwide. Our current offering is designed around the Microsoft 365 E5 suite. KAMIND is a Microsoft cloud first company with a focus on providing Office 365 and Azure solutions.
